March 1, 2010

Dear Valued Customer:

Accredo's Hemophilia Health Services is proud to join the community in recognizing National Hemophilia Awareness Month throughout the month of March. Established in 1986, this event seeks to raise awareness and understanding of hemophilia and related bleeding disorders.

I am equally proud to share that Accredo's Hemophilia Health Services is celebrating its 20th year as part of the bleeding disorders community. This important anniversary reminds us of our simple goal—to enhance the quality of life for those affected by bleeding disorders.

We continue to support the bleeding disorders community by providing a variety of educational resources, as well as opportunities to pursue higher education through our Memorial Scholarship program. We also advocate at local, state, and national levels to increase awareness about issues affecting the bleeding disorders community. We proudly partner with Project SHARE, a humanitarian program that donates factor to developing countries.

Our team of healthcare professionals is available to assist you, your family, and your healthcare provider in effectively managing your therapy.

As always, it is an honor to mark these special occasions with you. We appreciate the opportunity to continue fulfilling your specialty pharmacy needs.

Sincerely,

A handwritten signature in black ink that reads "Craig Mears". The signature is written in a cursive, flowing style.
